# JANSAN

## Keeping facilities supplied for success

### JanSan Category

We offer a complete assortment of all the essential categories. From towels and tissues to trash bags, cleaning chemicals to mop buckets, with over 14,000 SKUs we have all of your facility and maintenance needs covered.

### National Brands

Look to us for the top national brands across categories. And within each category, we provide a range of brands to support all you need to keep facilities clean, safe and well-maintained. With close to 250 JanSan suppliers, we have the brands you want.

### Boardwalk

Delivering professional performance for less, Boardwalk is the brand you can always count on for exceptional value. Over 1,000 JanSan and paper products provide reliable options at competitive prices, all delivered with the rest of your order.

### Windsoft

Windsoft is our premium towel and tissue private brand. It offers a higher quality to meet the needs of your more discerning customers.

# SAFETY

## Keeping workplaces prepared and protected

### Safety Category

We offer a complete assortment of all the essential categories. From head and hand protection to first aid, with close to 2,600 SKUs we have all of your safety needs covered.

### National Brands

Look to us for the top national brands across categories. And within each category, we provide a range of brands to support all you need to keep your team safe and protected. With over 70 safety suppliers stocked, we have the brands you want.

### Boardwalk

With Boardwalk, it's easy to offer customers the quality they expect at an excellent value – increasing their savings and the profitability of your safety business. Boardwalk has over 130 safety products, providing reliable, quality options at competitive prices, all delivered with the rest of your Essendant order.

### Distribution Network

With over 30 distribution centers nationwide, we can support next-day delivery to 98% of the U.S. - so you don't have to tie up capital in excess inventory. From last-mile delivery to fully supported distribution complete with your branding to your customer's doorstep, we have you covered.

### Marketing Programs

We provide the marketing tools to support your success within the safety category. Our tools include: annual facility catalog, product content to populate your website, monthly digital and print campaigns to promote safety to your customers.

# Disinfecting Hard, Non-Porous Surfaces

Wear protective gloves.

Pre-clean visibly soiled areas to be disinfected.

To disinfect, apply **Peroxide Multi Surface Cleaner and Disinfectant** with a coarse spray on hard, non-porous surface. Spray 6-8" from surface, making sure to wet thoroughly.

Apply product to high-touch surfaces such as doorknobs, light switches, faucets, counter tops, tables, chair armrests, etc.

Allow surface to remain wet for 3 minutes at 6 oz./gal or 5 minutes at 4 oz./gal use dilution.

Note: Peroxide Multi Surface Cleaner and Disinfectant has demonstrated effectiveness against viruses similar to 2019 Novel Coronavirus (COVID-19) on hard, non-porous surfaces. Therefore, Peroxide Multi Surface Cleaner and Disinfectant can be used against COVID-19 when used in accordance with the directions for use against Norovirus at 6 oz/gallon for a contact time of 45 seconds OR at 4 oz/gallon for a contact time of 2 minutes on hard, non-porous surfaces.

Wipe the surfaces or allow to air dry.

**Peroxide Multi Surface  
Cleaner and Disinfectant**

# DISINFECTANT APPLICATION METHODS

All Ecolab disinfectants approved for use with a spray application can be applied using a trigger sprayer, pressure sprayer or electrostatic sprayer.  
 \*\*Follow product label directions for use when applying to ensure adherence to surface wetting and contact time, PPE, compatibility, and any required rinse post-application.

		How it Works	Benefits	Considerations
Trigger Spraying		Manual trigger pulls apply a coarse spray of disinfectant to cover surface	<ul style="list-style-type: none"> <li>• Cost effective</li> <li>• Heavier spray for pre-cleaning when needed</li> <li>• Adjustable nozzle for wider or more directed spray</li> </ul>	<ul style="list-style-type: none"> <li>• Manual application</li> <li>• May need to manually dry surfaces after desired contact time</li> </ul>
Pressure Spraying		Pressurized tank allows for continuous coarse spray to cover surface	<ul style="list-style-type: none"> <li>• Continuous spray</li> <li>• Heavier spray for pre-cleaning when needed</li> <li>• Coat larger areas more easily than with manual spray</li> </ul>	<ul style="list-style-type: none"> <li>• Specialized equipment</li> <li>• Intermittent manual or mechanical pressurization required</li> <li>• May need to manually dry surfaces after contact time</li> </ul>
Electrostatic Spraying		Powered continuous electrically charged spray evenly coats surfaces	<ul style="list-style-type: none"> <li>• Continuous spray</li> <li>• Charged particles evenly coat surfaces</li> <li>• Even coating of surface allows for more effective air drying</li> </ul>	<ul style="list-style-type: none"> <li>• Specialized equipment</li> <li>• May require a separate application method for pre-cleaning</li> <li>• Need to ensure enough application to allow proper contact time before drying</li> </ul>

# DISINFECTION USING AN ELECTROSTATIC SPRAYER

## DISINFECTING NON-FOOD CONTACT SURFACES

- Fill Electrostatic sprayer reservoir with diluted Ecolab EPA List N: Disinfectants for use against COVID-19
- Follow product label directions for use when applying to ensure adherence to surface wetting, contact time, and compatibility
- Wear proper PPE as designated by disinfectant Safety Data Sheet and product label
- Follow local public health authorities for additional PPE considerations
- Follow electrostatic sprayer manufacturer instructions for device operation

1

### PRE-CLEAN

Pre-clean visibly soiled areas.

2

### DISINFECT

Apply an even coat of disinfectant to all **hard surfaces** using the electrostatic sprayer. Ensure enough coverage to allow for disinfectant specific wet contact time.

Ecolab disinfectants are currently not for use on soft surfaces or carpets. Avoid spraying directly or indirectly on electronic equipment.

3

### WAIT

**Allow the surface to remain wet** for the time indicated in the directions for use on the product label.

4

### DRY

Wipe the surface or allow to air dry.

## Easy Shield™ Customer-Service Panel

A quick and easy solution to improve health and safety during customer interactions.

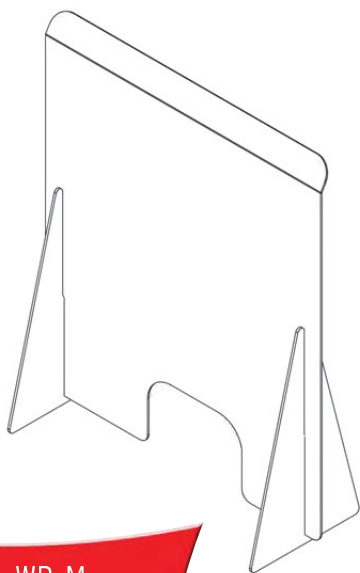

### Adds a Health Component to Personal Customer Service

- Provides a clear, sanitary-positive barrier at point-of-sale to improve health and safety, while preserving friendly, face-to-face customer interaction.
- Simple design, as a countertop stand or hanging-ceiling version, makes assembly and installation extremely easy.
- Highly stable, yet lightweight for convenient mobility from one counterspace to another, if needed.

### Designed for Commercial Use

- Manufactured of tough, durable, thick polycarbonate.
- Easy to clean (*with wipes approved for polycarbonate*).
- Scratch-resistant to preserve a clear, customer-friendly appearance.

*Note: Some applications might require anchoring the unit to stationary hardware.*

Contact Your W.B. Mason  
Sales Representative  
to place an order!

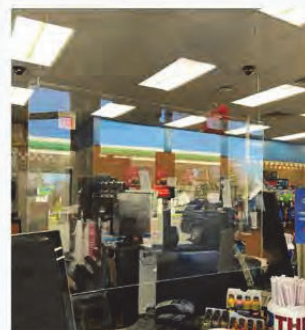

### Suggested Uses

**Great for any business operation that would like to maintain a simple barrier between staff and customers, without the cost or inconvenience of a major remodeling project.**

### Standard Specifications

Model	Description	Dimensions (w x d x h)
69792-24	Countertop Easy Shield	24" x 14" x 42"
69792-36	Countertop Easy Shield	35" x 14" x 42"
69798	Hanging Easy Shield	36" x 1/4" x 24"

*Hanging model includes six feet of chain, already attached, and hardware that easily mounts to existing ceiling tiles.*

**Custom sizing available. Just ask when you call.**

*Nemco reserves the right to make design, specification or model changes without notice.*

**VISIT [WWW.WBMASON.COM](http://WWW.WBMASON.COM) FOR  
OUR FULL SELECTION!**

## Product Details

- Surgical face masks are made of three layers:
  - 1<sup>st</sup> Layer : 25g/m<sup>2</sup> non-woven fabric
  - 2<sup>nd</sup> Layer: 25g/m<sup>2</sup> melt-blown fabric
  - 3<sup>rd</sup> Layer: 25g/m<sup>2</sup> non-woven fabric
- Size: 17 x 9 cm
- Filtration Efficiency : BFE ≥ 99.1%; PFE ≥ 96.5%
- Adult and junior sizes available

## Product Certifications:

- ASTM F1862/ F2100
- 16 CFR 161
- CE EN14683
- Class 2 (Exempt) Face Mask

## Pricing FOB

- 1,000 to 10,000 masks: \$1.48/mask
- 10,000+ to 100,000: \$1.38/mask
- 100,000+ to 1 million: \$1.28/mask
- Over 1 million: \$1.18/mask

## Price LDP (USD)

- 14 cents added per mask for duty and freight to US destination. Other destinations quoted on demand (2 day UPS Global service)

## Payment Terms

- Payment on order by wire transfer

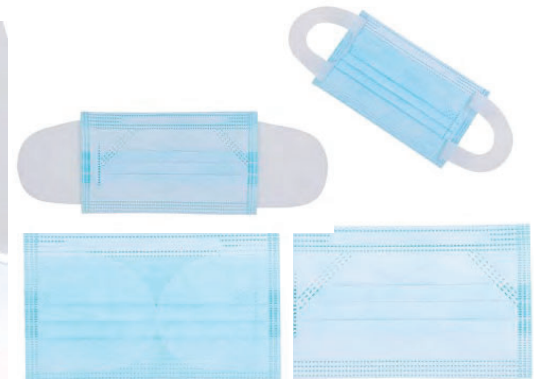

## Supply

- Daily quantity: 3-5 million units

## Lead Time

- 1-7 days depending on size of order and backorder conditions

Features	Benefits
Comfortable ear loop	Easy to wear
Adjustable nose bridge	Good fit
Made of high-quality fabric	Softness
Accordion style design	Easy storage

- 100,000+ to 1 million: \$1.01/mask
- Over 1 million: \$0.98/mask

## Price LDP (USD)

- + 12 cents added per mask for duty and freight to US destination. Other destinations quoted on demand (2 day UPS Global Service)

## Payment Terms

- Payment on order by wire transfer

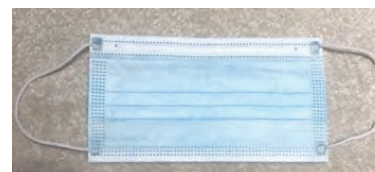

## Supply

- Daily quantity: 3-5 million units

## Lead Time

- 3 days (depending on size of order and backorder conditions)

Features	Benefits
Comfortable ear loop	Easy to wear
Adjustable nose bridge	Good fit
Made of high-quality fabric	Softness
Accordion style design	Easy storage

# KN95 Face Mask

## Product Details

- The KN95 Respirator Face Mask is made as per industry standards similar to the American N95 and European FFP2 certifications and is able to filter up to 95 per cent of non-oily suspended particles of 0.3 micron levels. The mask is available in white with a slightly rounded shape and thicker surface enabling them to filter fine particles.
- Adult and junior sizes available

## Product Certifications:

- CE EN 14683
- CE EN149: 2001
- GB 2626-2006
- FDA CFR177 1040

## Pricing FOB

- 1,000 to 10,000: \$4.70/mask
- 10,000+ to 100,000: \$4.50/mask
- 100,000+ to 1 million: \$4.30/mask
- Over 1 million: \$4.10/mask

## Price LDP (USD)

- + 36 cents added per mask for duty and freight to US destination. Other destinations quoted on demand (2 day UPS Global Service)

## Payment Terms

- Payment on order by wire transfer

## Supply

- Daily quantity: 800,000 units

## Lead Time

- 1-7 days depending on size of order and backorder conditions

Features	Benefits
Comfortable ear loop	Easy to wear
Adjustable nose bridge	Good fit
Made of high-quality fabric	Softness
Fall flat design	Easy storage

# NIOSH N95 Face Mask

## Product Details

- "The NIOSH approved Surgical N95 Respirator Facemask is made per industry standards and additionally has CE EN 149:2001 certification which is comparable to the American N95. The 'N95' designation means that when the product is subjected to careful testing, it blocks at least 95% of very small (0.3 micron) airborne particles. However, it is not resistant to oil.
- The masks are available in white in junior and adult sizes. The mask is available in white with a slightly rounded shape and a thick surface enabling it to filter fine particles.

## Product Certifications:

- NIOSH Approved 42 CFR 84
- CE EN 149: 2001
- GB 2626-2006
- GB 19083

## Pricing FOB

- 1,000 to 5,000: \$8/ mask
- 5,000+ to 10,000: \$7.75/mask
- 10,000+ to 100,000: \$7.50/mask
- 100,000+ to 1 million: \$7.25/ mask
- Over 1 million: \$7/mask

## Price LDP (USD)

- + 36 cents added per mask for duty and freight to US destination. Other destinations quoted on demand (2-day UPS Global service)

## Payment Terms

- Payment on order by wire transfer

## Supply

- Daily quantity: 300,000-500,000 units

## Lead Time

- 3 days (depending on size of order and backorder conditions)

Features	Benefits
Comfortable ear loop	Easy to wear
Adjustable nose bridge	Good fit
Made of high-quality fabric	Softness
Fall flat design	Easy storage

# CDC Info on N95 Respirators: Crisis/Alternate Strategies

- Referencing the CDC Coronavirus Disease 2019 (COVID-19) “Strategies for Optimizing the Supply of N95 Respirators: Crisis/Alternate Strategies”: “Use of respirators approved under standards used in other countries that are similar to NIOSH-approved N95 respirators” direction, **these devices and standards are suitable alternatives to provide protection during the COVID-19 response when supplies are short.**

# Nitrile Disposable Gloves

## Product Details

- Disposable Nitrile Gloves (powder free):
  - 5-8 MIL durable material
  - Made from a synthetic polymer composed of three monomers (acrylonitrile, butadiene, and a carboxylic acid)
  - Comfortable easy on and easy off design
- Size: Adult X-Small, Small, Medium, Large and X-Large

## Product Certifications

- CE EN374

## Pricing FOB

- 1,000 to 10,000 gloves: **\$22.00/Box of 100 Gloves**
- 10,000+ to 100,000: **\$21.00/Box of 100 Gloves**
- 100,000+ to 1 million: **\$19.50/Box of 100 Gloves**
- Over 1 million: **\$17.00/Box of 100 Gloves**

## Price LDP (USD)

- + \$3.00 added per box for duty and freight to US destination. Other destinations quoted on demand (2 day UPS Global service)

## Payment Terms

- Payment on order by wire transfer

## Supply

- Daily quantity: 1-3 million units

## Lead Time

- 3 days (depending on size of order and backorder conditions)

Features	Benefits
Dark- Blue	Hard to stain
Made of Nitrile	More resistant than natural rubber to oils, chemicals and acids
Superior Strength	Longer lasting
Latex Free	Comfortable to wear

# Medical Grade Nitrile Disposable Gloves

## Product Details

- Patient Examination Glove (Medical Grade):
  - 5-8 MIL durable material
  - Made from a synthetic polymer composed of three monomers (acrylonitrile, butadiene, and a carboxylic acid)
  - Comfortable easy on and easy off design
- Size: Adult X-Small, Small, Medium, Large and X-Large

## Product Certifications

- FDA 510 (K) K163126
- 21 CFR 880.6250

## Pricing FOB

- 1,000 to 10,000 gloves: \$24.00/Box of 100 Gloves
- 10,000+ to 100,000: \$23.00/Box of 100 Gloves
- 100,000+ to 1 million: \$21.50/Box of 100 Gloves
- Over 1 million: \$19.00/Box of 100 Gloves

## Price LDP (USD)

- + \$3.00 added per box for duty and freight to US destination. Other destinations quoted on demand (2 day UPS Global service)

## Payment Terms

- Payment on order by wire transfer

## Supply

- Daily quantity: 1-3 million units

## Lead Time

- 3 days (depending on size of order and backorder conditions)

Features	Benefits
Dark- Blue	Hard to stain
Made of Nitrile	More resistant than natural rubber to oils, chemicals and acids
Superior Strength	Longer lasting
Latex Free	Comfortable to wear

# Disposable Isolation Gown

## Product Details

- Gowns are examples of personal protective equipment that are intended to promote infection control practices and help protect patients and healthcare workers against microorganisms and body fluids during routine care, examinations, and medical procedure
- Size: Available in standard size L, one size fits most. Generous sizing, long ties.
- Colour: Blue, Yellow., Green

## Product Certifications

- Polyethylene-coated polypropylene isolation gowns
- CE EN 14126 certification with FDA 510 (K)

## Pricing FOB

- \$11.00/unit delivered to any US destination by UPS Worldwide Express

## Payment Terms

- Payment on order by wire transfer

## Supply

- Weekly quantity: 72,000 units.

## Lead Time

- 3-5 days (depending on size of order and backorder conditions)

Features	Benefits
Made from polypropylene and polyethylene coated together	Protection from fluids. Provides great fluid protection for worry-free job performance
Polypropylene fabric	Low-linting. Polypropylene fabric makes these gowns naturally low in lint
Tie Back closure	Comfortable to wear
Elastic cuffs	Snug fit

# Disposable Protective Coveralls

## Product Details

- Material PP nonwoven fabric 30 GSM plus breathable film 30 GSM
- 3 Panel Hood coveralls with zipper closure, taped seams, elastic cuff waist
- EO sterilization
- Color white with blue adhesive tape
- Sizes: S, M, L, XL, XXL, 3XL

## Product Certifications

- EN ISO13485: 2016
- FDA Establishment and Device Listing

## Pricing FOB

- \$24.80/unit delivered to any US destination by UPS Worldwide Express

## Payment Terms

- Payment on order by wire transfer

## Supply

- Weekly quantity: 20,000-50,000 units

## Lead Time

- 5-6 days (depending on size of order and backorder conditions)

Features	Benefits
Material PP nonwoven fabric 30 GSM plus breathable film 30 GSM	Comfortable to wear
Zipper closure, taped seams, elastic cuff waist	Good protection with snug fit

# Infrared Thermometer

## Product Details

- Non-touch measurement
- High precision infrared sensor
- Practical patent design
- High definition display
- Size: 40 mm x 44 mm x 164 mm (L x W x H)
- Weight: 61 gm
- Memory: 32 groups
- Operating temperature: 41°F ~ 104°F
- Measuring mode: Forehead mode
- Measuring range: 89.6 °F ~ 107.96°F
- Voltage Source: 2x1.5 V Batteries: Size AAA
- Display: LSD/LED digital display
- Automatic poweroff: 60s

## Pricing FOB

- 500 to 1000: \$88 / thermometer
- 1,000+ to 5,000: \$84/ thermometer
- 5,000+ to 10,000: \$82 / thermometer
- 10,000+ to 100,000: \$75 / thermometer

## Payment Terms

- Payment on order by wire transfer

## Supply

- 25000/ day

## Lead Time

- 3 days (Any quantity of order)

Features	Benefits
Forehead Mode	Non-invasive and sterile with no bodily fluid contact
Measures in 1 sec	Quick and saves time
Fever warning	Automatic diagnosis
Memory recall	Comparison of temperature records
Replaceable Battery	Longer product life
Auto power-off	Energy conservation

## BotaniClean™ Disinfectant

Use BotaniClean anywhere the hazards of contamination create risk. Featuring a unique, nature-inspired thymol blend, the product is EPA-registered as a Category IV low-toxicity disinfectant, requiring no warning labels and no PPE. This broad-spectrum antimicrobial is economical, ready-to-use and lets you clean, disinfect and deodorize – all in one easy step. And the product doesn't separate, helping to ensure consistent application every time. (Not available in Canada.)

### FEATURES

- Germicidal detergent with broad spectrum kill of gram positive and gram negative microorganisms that cleans, disinfects and deodorizes in a simple one-step process.
- Deep cleans and deodorizes carpets, upholstery and fabrics
- Disinfects and deodorizes devices and hard surfaces.
- Thymol provides consistent product every time.
- Low toxicity, no PPE required\*
- Mild pleasant fragrance – no harsh fumes
- Ready-to-use AND economical – costs 25% less than other EPA Category IV solutions
- \*See product label for complete directions for use.

### SPECIFICATIONS

- Form : Liquid RTU
- pH: 3.5 ±0.5
- EPA registration no.: 34810-25-70385
- Xactimate: WTRGRMB
- Appearance: Transparent to slightly turbid liquid
- Specific gravity: 1.03–1.00

### SIZES ▪ OPTIONS

- 224006000: Four 3 L (101.4 fl. oz.) bottles

# Victory Electrostatic Sprayer

Professional Cordless Delivery system

Brought to you by **Quick Response Restoration**

## SPRAYERS

vs.

## FOGGERS

vs.

## ELECTROSTATICS

THE TRADITIONAL METHOD  
OF APPLYING SOLUTIONS.

### Positives +

- Cheap materials
- Easy to do
- Adapt easily to different surfaces

### Negatives —

- Time
- Effectiveness
- Not used correctly (2 step method)
- Quality of products
- Very wet surfaces

THE MIDDLE MAN IN THE  
APPLICATION PROCESS.

### Positives +

- Large surface area covered
- Soft furnishings can be sprayed
- Does not need to be manned
- Hits surface areas it can detect

### Negatives —

- Doesn't hit vertical/shadowed/  
underneath surfaces
- Full room closure
- Long amount of down time
- Uses a lot of solution

THE NEXT STEP IN  
APPLICATION OF SOLUTIONS.

### Positives +

- Electrostatic machines provide an electrical charge to the solution, giving them a wrap around, effective and even coverage.
- Envelops all surfaces, shadowed, vertical and underneath. Uses less solution, saving you money. Minimal downtime and saves time on labor.
- Portable and easy to operate. Confidence in solution coverage and effectiveness. Cover larger areas efficiently.

## BENEFITS OF ELECTROSTATIC

### DISINFECTION MADE EASY

#### TOUCHLESS APPLICATION

With the application of the water-based solution through the electrostatic sprayer, there is no need to touch / wipe the surfaces (depending on solution used).

#### REDUCE CROSS CONTAMINATION

Cross contamination can be considerably reduced due to the touchless effect of the sprayer. Surfaces will not be touched by cloths or human hands therefore will not move the bacteria from one place to another.

#### LIQUID ADHESION

fill The electrostatic positive charge inserted into the droplet (unlike any other electrostatic application) enables the droplet to adhere itself to the surface via the cationic charge. As the droplets hit the surface they create an even spread because they hold their cationic charge for approx 2-3 seconds therefore not creating drips as two positive charges will repel from each other.

#### DWELL TIMES

Our sprayers enable water based solutions to meet their dwell time, therefore ensuring that the solution works to its full capabilities. The 3 way nozzle can be used to change the amount of solution applied which, in turn enables the dwell time required.

#### ELECTROSTATIC WRAPPING

In simple terms when you spray a solution that is charged with electrostatics, the solution will envelop the target. Electrostatic technology is not an invention. It is a natural condition. We expertly leverage this electrical phenomenon and we provide a patented system for broader and safer use. When spraying, our static charge stays with the solutions for up to 5ft.

#### PORTABILITY

This portability of electrostatic sprayers has never been seen before and has enabled us to bring these revolutionary commercial sprayers to all markets and business types. They are light weight, cordless and come complete with a carry case so they can be taken anywhere! Refer to current DOT regulations for shipment by air of lithium-ion battery used with your unit.

#### ECO FRIENDLY

Our sprayers give an eco friendly approach to disinfection due to the time that can be saved while utilizing the sprayers, but also the reducing the amount of solution of that is sprayed.

#### QUICK AND EFFECTIVE

Using the electrostatic sprayers will enable a quick and effective disinfection / sanitization. This is because the electrostatic charge that's applied, allows the solution to cover hidden and shadowed areas, but also enables you to cover a large area in a small amount of time. The sprayers have also been designed to meet dwell times for solutions so they can work to their full capabilities.
